## I. POLICY STATEMENT

The Montachusett Regional Transit Authority (“MART”) has established a Disadvantaged Business Enterprise (DBE) program in accordance with the regulations contained in 49 CFR Part 26, “Participation by Disadvantaged Business Enterprises in Department of Transportation Programs.” MART has received Federal financial assistance from the Department of Transportation through the Federal Transit Administration, and as a condition of receiving this assistance, MART has signed an assurance that it will comply with 49 CFR Part 26.

The elements presented in MART’s Program Plan are intended to assure that all contracts and procurements will be administered without discrimination on the basis of race, color, national origin or sex. MART’s policy ensures that Disadvantaged Business Enterprises (“DBE’s”), as defined in part 26, shall have an equal opportunity to compete for and participate in the performance of all DOT-assisted contracts and subcontracts awarded by the Authority. The MART Administrator is responsible for carrying out the policies and procedures in the execution of the DBE Program Plan. It is also our policy:

1. To ensure nondiscrimination in the award and administration of DOT-assisted contracts;
2. To create a level playing field on which DBEs can compete fairly for DOT-assisted contracts;
3. To ensure that the DBE Program is narrowly tailored in accordance with applicable law;
4. To ensure that only firms that fully meet 49 CFR Part 26 eligibility standards are permitted to participate as DBEs;
5. To help remove barriers to the participation of DBEs in DOT assisted contracts;
6. To assist the development of firms that can compete successfully in the marketplace outside the DBE Program.

The Grants Manager has been delegated as the DBE Liaison Officer. In that capacity, the Grants Manager, is responsible for the development, implementation, monitoring, compliance and record keeping functions associated with this program. Implementation of the DBE program is accorded the same priority as compliance with all other legal obligations incurred by MART in its financial assistance agreements with the Federal Transit Administration.

MART has disseminated this policy statement to the MART Advisory Board members and all divisions of our organization. MART has also distributed this statement to the DBE and non-DBE business communities that perform work for us on FTA/DOT-assisted contracts.

Authorized signature \_\_\_\_\_ Date \_\_\_\_\_  
Bruno Fisher, Administrator

## II. PROGRAM GENERAL REQUIREMENTS

### A. Objectives

The objectives are found in the policy statement on the first page of this program.

### B. Applicability

The Montachusett Regional Transit Authority DBE Program is based on provisions found in 49 CFR Part 26 and thus observes certain statutory and regulatory requirements as a condition of law and federal funding requirements. The DBE Program will apply to all projects receiving the following types of funds: Federal transit funds authorized by Titles I, III, V and VI of ISTEA, Pub. L. 102-240 or by federal transit laws in Title 49, U.S. Code, or Titles I, III, and V of the TEA-21, Pub. L. 105-178. Titles I, III, and V of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), Pub. L. 109-59, 119 Stat. 1144; and Divisions A and B of the Moving Ahead for Progress in the 21st Century Act (MAP-21), Pub. L. 112-141, 126 Stat. 405.

On December 4, 2015, President Obama signed the Fixing America's Surface Transportation (FAST) Act, reauthorizing surface transportation programs through Fiscal Year 2020. Federal transit funds apportioned under the FAST Act also fall under the purview of the DBE Program, although the statute has yet to be amended to reflect this reauthorization.

### C. Definitions

MART hereby references Section 26.5 of 49 CFR Part 26 as amended.

### D. Forbidden Discriminatory Actions

It is the policy of MART that no person(s) will ever be excluded from participation in, denied the benefits of, or otherwise be discriminated against in connection with the award and performance of any contract covered by 49 CFR Part 26 on the basis of race, color, national origin or sex. In the administration of its DBE Program, MART will not directly or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of this program with respect to individuals of a particular race, color, sex, or national origin.

### E. Record Keeping Requirements

**Reporting:** MART will report DBE participation to the Federal Transit Administration using the Uniform Report of DBE Awards or Commitments and Payments form. FTA updated the electronic reporting version in October 2014 and moved it under the Civil Rights section of the recipient's organization in the Transit Award Management System (TrAMS). The system automatically generates a task twice a year (on April 1<sup>st</sup> and October 1<sup>st</sup>) for completion of this semi-annual report prior to June 1<sup>st</sup> and December 1<sup>st</sup> respectively. The DBE Liaison Officer has credentials to login to TrAMS to submit these reports.

**Bidders List:** MART has created and will maintain a bidders list. Said list presently consists of all firms which have bid on prime contracts and subcontracts or quoted on MART DOT-assisted projects within the past three years. The purpose of this requirement is to allow use of the bidders' list approach to calculating overall goals. The bidder list will include, as required by Part 26, the name, address, DBE/non-DBE status, age, and annual gross receipts of firms. MART collects this information in the following ways:

1. MART will require all contractors bidding on FTA assisted projects to furnish at the time of bid opening, or proposal/quotation submission, the following information about themselves and all subcontractors who provided a bid to the prime contract:
  - a. Firm Name
  - b. Firm Address
  - c. Firm's status as a DBE or non-DBEIf the Prime is using Subcontractors; for prime and each subcontractor:
  - d. Scope of DBE work (function)
  - e. Dollar Value of Bid and DBE Amount(s)
2. MART will conduct a survey of firms on the bidders list to collect information about the age of the firm and annual gross receipts. The annual receipts will be put into brackets (e.g., less than \$500,000; \$500,000-\$1 million; \$1-2 million; \$2-5 million; etc.) so as not to burden the firms with exact dollar values.

#### **F. Nondiscrimination Assurances**

MART acknowledges that it will include or require the inclusion of the appropriate assurance clauses as specified in Section 26.13 of 49 CFR Part 26 in its financial assistance agreements with FTA, or other applicable DOT operating administration, and in each contract executed with a contractor, and each subcontract the prime contractor executes with a subcontractor. The two assurances, respectively, are as follows:

1. Federal Financial Assistance Agreement Assurance: 26.13(a)

*The recipient [MART] shall not discriminate on the basis of race color, national origin, or sex in the award and performance of any DOT assisted contract or in the administration of its DBE Program or the requirements of 49 CFR Part 26. The recipient shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure nondiscrimination in the award and administration of DOT assisted contracts. The recipient's DBE Program, as required by 49 CFR Part 26 and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to [MART] of its failure to carry out its approved program, the Department may impose sanction as provided for under Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 et seq.).*

2. Contract Assurance: 26.13(b)

*The contractor, sub-recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT assisted contracts. Failure by the contractor to carry out the requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient [MART] deems appropriate.*

### **III. ADMINISTRATIVE REQUIREMENTS**

#### **A. Liaison Officer**

MART's Grants Manager, has been designated as the DBE Liaison Officer. She will have independent access to MART's Administrator concerning DBE program matters. An organizational chart is provided in Exhibit 1.

The DBE Liaison Officer (DBELO) will be responsible for developing, implementing and monitoring MART's DBE Program. Relevant staff will be assigned various duties and responsibilities, which the DBELO will oversee and provide direction. These include:

1. Gathering and reporting statistical data and other information as required by FTA.
2. Reviewing third party contracts and purchase requisitions for compliance with this program.
3. Working with all departments to set overall annual goals.
4. Ensuring that bid notices and requests for proposals are available to DBEs in a timely manner.
5. Identifying contracts and procurements so that DBE goals are included in solicitations (both race-neutral methods and contract specific goals) and monitoring results.
6. Analyzing MART's progress toward goal attainment and identifying ways to improve progress.
7. Participating in pre-bid meetings.
8. Advising the Administrator on DBE matters and achievement.
9. Making determinations of contractor compliance with good faith efforts.
10. Providing DBEs with information and guidance in preparing bids, obtaining bonding and insurance.
11. Assuring the certification of DBE's according to the criteria set by DOT and acts as liaison to the Uniform Certification Process in Massachusetts.
12. Provides outreach to DBEs and community organizations to advise them of opportunities.
13. Maintains MART's updated directory on certified DBEs.

#### **B. Program Updates**

Since MART receives more than \$250,000 in any given Federal fiscal year from the Federal Transit Administration to carry out planning, capital, and/or operating programs, we will continue to carry out this program until all funds from DOT financial assistance have been expended. We will provide to DOT updates representing significant changes in the program.

#### **C. Financial Institutions**

The Chief Financial Officer will help investigate the full extent of services offered by local financial institutions owned and controlled by socially and economically disadvantaged individuals in the community, to make reasonable efforts to use these institutions, and to encourage prime contractors on DOT-assisted contracts to make use of these institutions. MART has made the following efforts to identify and use such institutions. We will also re-evaluate the availability of DBE financial institutions every eighteen months.

#### **D. Prompt Payment Policy**

As a part of this program MART will require the following prompt payment and retainage clauses to be included in all of its third-party contracts which receive FTA funding. These clauses apply to both DBE and non-DBE subcontracts.

*The prime contractor is required to pay each subcontractor under this contract for satisfactory performance of its contracts no later than fifteen days from receipt of each payment received by the prime contractor from MART. Any delay or postponement of payment between prime and subcontractors may take place only for good cause, and with MART's prior written approval.*

*MART will establish, as part of the contract between the Prime Contractor and MART, a schedule of values detailing the project activities and timelines for work performed by the GC and all subcontractors. Retainage release payments will be established based upon this schedule of values. The prime contractor must return retainage payments to each subcontractor within 15 days after the subcontractors' work is satisfactorily completed. Any delay or postponement of payment between prime and subcontractors may take place only for good cause, and with MART's prior written approval.*

*MART will monitor all payment schedules for inclusion of work performed by subcontractors. MART will contact at random subcontractors to ensure that payments for satisfactory completed work have been received. If an occurrence is found in which a subcontractor was not paid by the Prime, the prime contractor will not be reimbursed for work performed by subcontractors, unless and until the prime contractor pays the subcontractors and ensures that the subcontractors continue to be promptly paid for work performed.*

*If a prime contractor determines subcontractor work to be unsatisfactory, it must notify MART's Liaison Officer immediately, in writing, and state the reasons. Failure to comply with this requirement will be construed to be a breach of contract and subject to contract termination.*

#### **E. DBE Directory**

MART uses and will continue to use as necessary, a DBE directory identifying all firms eligible to participate as DBE's in its program. MART will utilize the Massachusetts Supplier Diversity Office (SDO) as its DBE certifying agency. Contents of the directory will be downloaded directly from the SDO Directory of Certified Businesses in compliance with Section 26.31 of 49 CFR Part 26 of DOT's final rule on DBE participation.

#### **F. Overconcentration**

MART has not identified that an overconcentration exists in the types of work that DBEs perform in our region. MART will re-evaluate for overconcentration every three years. If, in subsequent years, MART does identify a situation where an overconcentration of DBE's is unduly burdening non-DBE firms we would address the problem by developing a method to address the problem and bring it to the attention of FTA. We might first vary the use of contract goals to lessen any burden on particular types of non-DBE specialty contractors. Secondly, we would assist prime contractors to find DBE's in non-traditional fields.

## **G. Business Development Programs**

MART has not established its own DBE Business Development Program (BDP). It is our understanding that both the Massachusetts Office of Business Development (“MOBD”) and the SDO’s Supplier Diversity Program may be utilized by MART whenever we identify a company as a potential candidate in need of a business development program. MART would encourage companies to apply to participate in the above mentioned MOBD’s and SDO’s programs.

## **H. Compliance Mechanisms and Monitoring**

MART will conduct the following monitoring and enforcement mechanisms to ensure compliance with 49 CFR Part 26.

1. MART will bring to the attention of the Department of Transportation any false, fraudulent, or dishonest conduct in connection with the program, so that DOT can take the steps (e.g., referral to the Department of Justice for criminal prosecution, referral to the DOT Inspector General, action under suspension and debarment or Program Fraud and Civil Penalties rules) provided in 26.109.
2. MART will consider similar action under our own legal authorities, including responsibility determinations in future contracts. Attachment 3 lists the regulation, provisions, and contract remedies available to us in the events of non-compliance with the DBE regulation by a participant in our procurement activities.
3. MART will provide a monitoring and enforcement mechanism for periodically determining if the prime contractor is conforming to all material aspects of the requirements of the bid document. This examination would be conducted, by appropriate staff, each time a payment is processed for the prime contractor. (See MART Procedure PRJ-001 for more details.) In order to verify that the work committed to DBE’s at contract award is actually performed by the DBE firms, MART will require all prime contractors to provide, with each payment request, weekly statements detailing hours worked by project activity listed by individual DBE job category for each DBE firm. MART will also use its Project Manager (either in-house or outside) to verify via on-site inspections that the work stated to be performed by DBE firms is actually being performed by DBE firms.
4. In addition, a cumulative tally of the weekly statements (thru Prevailing Wage Reports) must be provided to MART by the prime contractor. That tally must include the following clause and must be signed and dated by the Chief Financial Officer of the Prime contractor.

*All Subcontractors, both DBE and non-DBE, who completed work and were listed on this Application for Payment, herewith will be paid within the required fifteen (15) business days after the above-named Company receives payment from MART. The DBE firm(s) will be noted and therefore, DBE participation may be credited toward overall or contract goals.*

The DBE Liaison Officer will be notified when a contract change or amendment is made, and the prime contractor must submit a statement regarding how the change may affect DBE subcontracting. The Project Manager will assure the DBELO that the work is actually being done by DBE’s.

## **I. Fostering Small Business Participation**

The Small Business Association defines a small business concern as a small business that is not dominant in the field of operation for which it is bidding on a government contract, in addition to qualifying as a small business under the criteria and size standards in Title 13, Code of Federal

Regulations, part 121 (13 CFR 121). For purposes of this SBE element of MART's overall DBE program, a small business concern, as defined in 49 CFR Part 26.5, also does not exceed the cap on average annual gross receipts specified in § 26.65(b). Which states: "Even if it meets the requirements of paragraph (a) of this section, a firm is not an eligible DBE in any Federal fiscal year if the firm (including its affiliates) has had average annual gross receipts, as defined by SBA regulations (see 13 CFR 121.402), over the firm's previous three fiscal years, in excess of \$16.6 million. The Secretary adjusts this amount for inflation from time to time." The cap was raised to \$22.41 million.

Size standards have been established for types of economic activity, or industry, generally under the North American Industry Classification System (NAICS). A matrix of small business standards by NAICS sector can be provided upon request. Size standards are usually reflected in the business's number of employees and average annual receipts. Based on those criteria, the SBA has established the following standards for a small business<sup>1</sup>:

- 500 employees for most manufacturing and mining industries
- \$7 million in average annual receipts for most non-manufacturing industries

While there are many exceptions, these are the primary size standards by industry

#### **CONSTRUCTION**

- General building and heavy construction contractors: \$33.5 million
- Special trade construction contractors: \$14 million
- Land subdivision: \$7 million
- Dredging: \$20 million

#### **MANUFACTURING**

- About 75 percent of the manufacturing industries: 500 employees
- A small number of industries: 1,500 employees
- The balance: either 750 or 1,000 employees

#### **SERVICES**

- Most common: \$7 million
- Computer programming, data processing and systems design: \$25 million
- Engineering and architectural services and a few other industries have different size standards
- The highest annual-receipts size standard in any service industry: \$35.5 million
- Research and development and environmental remediation services: the only service industries with size standards stated in number of employees

#### **WHOLESALE TRADE**

- For small business federal contracts: 500 employees and the firm must deliver the product of a small domestic manufacturer, as set forth in the SBA's non-manufacturer rule, unless waived by the SBA for a particular class of product. For procurements made under the Simplified Acquisition Procedures of the FAR, and where the purchase does not exceed \$25,000, the non-manufacturer may deliver the goods of any domestic manufacturer.
- For loans and all other programs: 100 employees are applicable for all industries.

---

<sup>1</sup> This section of information was taken directly from the SBA website @ <http://www.sba.gov/content/summary-size-standards-industry>

## OTHER INDUSTRIES

- Divisions include agriculture; transportation, communications, electric, gas, and sanitary services; and finance, insurance and real estate.
- Because of a wide variation in the structure of industries in these divisions, there is no common pattern of size standards.

MART has incorporated the following non-discriminatory element to its DBE program, in order to facilitate competition on DOT-assisted projects by small business concerns (both DBEs and non-DBE). MART's SBE implementation will establish a race-neutral small business program for prime contracts. This will be proposed on a per fiscal year basis by the DBELO, in consultation with the Administrator (or his designee).

MART, as a recipient of Small Urban 5307 funds for the majority of our capital projects, is guaranteed only about \$1-3 million per year for capital, and the majority of that goes to Operating Assistance and Preventative Maintenance. Large capital projects, which by some standards are more medium size (less than \$10 million), only come one at a time, and not every year. Many of the projects on MART's Five-Year Capital Improvement Plan range from \$15,000 to less than \$500,000. Therefore, by nature most of MART's contracting opportunities are feasible for small business enterprises. MART will take all reasonable steps to eliminate any obstacles to SBE participation, including unnecessary and unjustified bundling of contract requirements that may preclude small business participation in procurements as prime contractors or subcontractors. As part of this program MART will include, but is not limited to, the following strategies:

1. MART will provide a reasonable number of prime contracts available for small businesses by taking a yearly assessment of possible contracting opportunities. This yearly assessment will take place at the beginning of the calendar year when MART is reviewing its Capital Improvement Plan. Once a number is derived, we will seek approval of our Administrator. A blanket value cannot be set directly in this program since our capital expenditures vary greatly from year to year.
2. MART advertises contracting opportunities in local media outlets such as the Fitchburg Sentinel & Enterprise or Worcester Telegram to reach small businesses in the region.
3. MART alerts the North Central Chamber of Commerce regarding contracting opportunities at the authority.
4. In multi-year design-build contracts, MART will require bidders on the prime contract to specify elements of the contract or specific subcontracts that are of a size that small businesses, including DBEs, can reasonably perform. MART will stress during its pre-proposal meetings the benefits of using SBE's on their project teams.
5. MART will require prime contractors to provide subcontracting opportunities of a size that small businesses, including DBEs, can reasonably perform, rather than self-performing all the work involved. If MART is concerned that SBE participation is low during any contracting year, MART will institute contract clauses stating that SBE subcontracting requirements are mandatory and devise a form that will make it easier for the prime contractor to accomplish.
6. MART will annually track SBE participation to ensure that SBEs are included in contracting opportunities within MART. While many DBE firms may be SBEs, not all SBEs are DBEs. Therefore, SBE participation cannot be combined with DBE participation in measuring achievement of goals.

All SBE's must prove that they comply with SBA and DOT standards for FTA small business definitions as consistent with CFR 49 Part 26. SBE's are required to sign an affidavit certifying that they meet USDOT and SBA size standards for SBEs. MART will also verify their financial statements prior to contract award as part of our check on contractor responsibility.

#### **IV. DETERMINING, MEETING AND COUNTING OVERALL ANNUAL DBE GOAL FOR FEDERALLY-ASSISTED CONTRACTS**

##### **A. Set-asides or Quotas**

MART hereby references Sections 26.43 and 26.47 of 49 CFR Part 26.

##### **B. Overall Goals - Method: Step One, Base Figure; Step Two, Adjustments**

The DBE Liaison Officer will set an overall DBE goal, in accordance with Section 26.45, to be submitted to FTA by August 1<sup>st</sup> every three years. MART has been assigned to Group B by FTA Region I. Our current goals were submitted in 2011 with the next due in August 2014, and so forth. MART will also request use of project-specific DBE goals as appropriate, and/or will establish project-specific DBE goals as directed by FTA. The process used by MART to establish overall DBE goals is as follows:

Step 1: In order to determine a base figure for the DBE goal the following methodology was used: To determine the number of available DBE firms available to do business with MART, the SDO Certified Business Directory is downloaded, categorized, sorted and checked for duplicate listings in similar categories. To calculate all Firms within the same geographic region MART will use resources such as census data, the NAICS database, and Massachusetts Chamber of Commerce website directories under the same categories; again eliminating any duplicate firms which may be registered in multiple CoC's. Once the number of firms that fit the descriptions is determined, MART then divides the DBE's by category, by the Firms in the category, and this number is then multiplied by the percentage of the budget allocated to the category. All numbers are added together to give a final DBE base figure.

Step 2: MART will then study its historical data and overall DBE reporting. In then reviewing this overall number and also reviewing historical data, MART will determine its adjusted overall DBE goal.

##### **C. Public Participation**

MART has established a partnership with the Spanish American Center in Leominster which is a DBE certified business in Leominster that supports outreach to members of the community for job creation and is a member, along with MART, of the North Central Massachusetts Chamber of Commerce. MART is also a member of the North Central Workforce Investment Board. MART will continue to use the connections on this board to establish relationships with more minority and women contracting groups. MART will use these relationships to obtain information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and your efforts to establish a level playing field for the participation of DBEs.

#### **D. Published Notice**

MART will publish a notice announcing the proposed overall DBE goals as a part of this program every three years, with any significant goal revisions published as required, in the Fitchburg-Leominster Sentinel and Enterprise, the Worcester Telegram, the Boston Globe, and the Northeast Minority Business News. This notice will inform the public that a DBE participation program including DBE goals and a description of how they were developed are available for inspection during normal business hours at the office of the Montachusett Regional Transit Authority for 30 days following the date of said notice, and informing the public that the Department of Transportation and MART will accept comments on the goals for 45 days from the date of notice.

#### **E. Goal Setting and Accountability**

If the awards and commitments shown on MART's "Uniform Report of Awards or Commitments and Payments" at the end of any fiscal year are less than the overall goal applicable to that fiscal year, we will:

1. Analyze in detail the reason for the difference between the overall goal and the actual awards/commitments;
2. Establish specific steps and milestones to correct the problems identified in the analysis and to enable MART to meet fully our goal for the new fiscal year;
3. This analysis and corrective action plan must be completed within 90 days of the end of the fiscal year (December 29);
4. Maintain information/records regarding the analysis and efforts made in the records for three years and make it available to FTA on request for their review.

#### **F. TVM Certification**

MART requires that each transit vehicle manufacturer, as a condition of being authorized to bid or propose on FTA-assisted transit vehicle procurements certify that it has complied with the requirements of Section 26.49 of 49 CFR Part 26 of DOT's final rule on DBE participation.

Updates to the DBE regulation in 2014 required FTA recipients to report all to submit, within 30 days of making an award, the name of the successful bidder and the total dollar value of the contract. Therefore, when MART issues a contract, or PO, for the purchase of vehicles needed on an annual basis, MART will follow the policy and submit this report thru the link provided by FTA on their website at <https://www.transit.dot.gov/TVM>

#### **G. Race Neutral Measures vs. Contract Goals**

It is MART's intention to utilize race-neutral measures to achieve its overall DBE goal. All bids by MART are fully competitive. Primarily, but not to the exclusion of other possible measures, MART will ensure the inclusion of DBE's and other small businesses on MART's mailing lists for bidders. MART will ensure the dissemination to bidders on prime contract lists of potential subcontractors; and ensure awareness of MART's DBE directory via the Montachusett Regional Transit Authority's website.

MART does not intend to set any contract goals as a part of its overall goal for DBE participation. If MART, thru submission of the Semi-Annual Uniform Report of DBE Awards or Commitments and Payments or other information coming to the attention of FTA, demonstrates that current trends make

it unlikely that MART will achieve its overall goal at the end of the fiscal year, FTA may require MART to make further good faith efforts, such as by modifying our race-conscious/race-neutral split or introducing additional race-neutral or race-conscious measures for the remainder of the fiscal year.

## **H. Good Faith Efforts Procedures**

If at some point during the Federal Fiscal Year MART finds it necessary to utilize contract goals it will follow the regulations established in Section 26.53 of 49 CFR Part 26 in determining bidders/proposers good faith efforts in meeting MART's established goal.

1. Award of Contracts with a DBE Contract Goal: 26.53(a) – In those instances where a contract-specific DBE goal is included in a procurement/solicitation, MART will not award the contract to a bidder/proposer who does not either: (1) meet the contract goal with verified, countable DBE participation; or (2) documents it has made adequate good faith efforts to meet the DBE contract goal, even though it was unable to do so. It is the obligation of the bidder to demonstrate it has made sufficient good faith efforts prior to submission of its bid.
2. Evaluation of Good Faith Efforts: 26.53(a) & (c) – The Procurement Officer is responsible for determining whether a bidder/proposer, who has not met the contract goal, has documented sufficient good faith efforts to be regarded as responsive. The kinds of efforts that will be considered demonstrative of good faith efforts include, but are not limited to, the following:
  - a. Whether the contractor solicited through all reasonable and available means (e.g. attendance at pre-bid meetings, advertising and/or written notices) the interest of all certified DBE's who have the capability to perform the work of the contract. The bidder/proposer must solicit this interest within sufficient time to allow the DBEs to respond to the solicitation. The bidder/proposer must determine with certainty if the DBEs are interested by taking appropriate steps to follow up initial solicitations.
  - b. Whether the contractor selected portions of the work to be performed by DBE's and where appropriate, breaking out contract work items into economically feasible units to facilitate DBE participation.
  - c. Whether the contractor provided interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.
  - d. Whether the contractor negotiated in good faith with interested DBE's. It is the bidder/proposer's responsibility to make a portion of the work available to DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation.
    - (1) Evidence of such negotiation includes the names, addresses, and telephone numbers of DBE's that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting and evidence as to why additional agreements could not be reached.
    - (2) A bidder/proposer using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is

not in itself sufficient reason for a failure to meet the contract DBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder/proposer of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from DBEs if the price difference is excessive or unreasonable.

- e. Whether or not the contractor rejected DBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids in the contractor's efforts to meet the project goal.
- f. Whether the contractor made efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance as required by MART or the prime contractor.
- g. Whether the contractor made efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.
- h. Whether the contractor effectively using the services of available minority/women community organizations and contractors' groups; local, state, and Federal minority/women business assistance offices; and other organizations to provide assistance in the recruitment and placement of DBEs.

We will ensure that all information is complete and accurate and adequately documents the bidder/proposer's good faith efforts before we commit to the performance of the contract by the bidder/proposer.

- 3. Information to be Submitted: 26.53(b) – MART treats bidder/proposer's compliance with good faith efforts' requirements as a matter of responsiveness. Each solicitation for which a contract goal has been established will require the bidders/proposers to submit the following information:
  - a. The names and addresses of DBE firms that will participate in the contract;
  - b. A description of the work that each DBE will perform;
  - c. The dollar amount of the participation of each DBE firm participating;
  - d. Written and signed documentation of commitment to use a DBE subcontractor whose participation it submits to meet a contract goal;
  - e. Written and signed confirmation from the DBE that it is participating in the contract as provided in the prime contractors commitment and
  - f. If the contract goal is not met, evidence of good faith efforts.
- 4. Administrative Reconsideration: 26.53(d) - Within 15 days of being informed by MART that it is not responsive because it has not documented sufficient good faith efforts, a bidder/proposer may request administrative reconsideration. Bidders/proposers should make this request in writing to the following reconsideration official: Bonnie Mahoney, DBELO, 1427R Water Street, Fitchburg, MA 01420, 978-345-7711, [bonnie.mahoney@mrta.us](mailto:bonnie.mahoney@mrta.us). The reconsideration official will not have played any role in the original determination that the bidder/proposer did not document sufficient good faith efforts. As part of this reconsideration, the bidder/proposer will have the opportunity to provide written documentation or argument concerning the issue of whether it met the goal or made adequate good faith efforts to do so. The bidder/proposer will have the opportunity to meet in

person with MART's reconsideration official to discuss the issue of whether it met the goal or made adequate good faith efforts to do so. MART will send the bidder/proposer a written decision on reconsideration, explaining the basis for finding that the bidder/proposer did or did not meet the goal or make adequate good faith efforts to do so. The result of the reconsideration process is not administratively appealable to the Federal Transit Administration or the U.S. Department of Transportation.

5. Good Faith Efforts when a DBE is Terminated/Replaced on a Contract with Contract Goals:  
26.53(f) – MART requires that prime contractors not terminate a DBE subcontractor listed on a bid/contract with a DBE contract goal without MART's prior written consent. Prior written consent will only be provided where there is "good cause" for termination of the DBE firm, as established by Section 26.53(f)(3) of the DBE regulation. Before transmitting to MART its request to terminate, the prime contractor must give notice in writing to the DBE of its intent to do so. A copy of this notice must be provided to MART prior to consideration of the request to terminate. The DBE will then have five (5) days (sooner if a matter of public safety) to respond and advise MART of why it objects to the proposed termination. In those instances where "good cause" exists to terminate a DBE's contract, MART will require the prime contractor to make good faith efforts to replace a DBE that is terminated or has otherwise failed to complete its work on a contract with another certified DBE, to the extent needed to meet the contract goal. MART will require the prime contractor to notify the DBE Liaison officer immediately of the DBE's inability or unwillingness to perform and provide reasonable documentation.

In this situation, MART will require the prime contractor to obtain our prior approval of the substitute DBE and to provide copies of new or amended subcontracts, or documentation of good faith efforts. If the contractor fails or refuses to comply in the time specified, our Procurement office will issue an order stopping all or part of payment/work until satisfactory action has been taken. If the contractor still fails to comply, the Procurement officer may issue a termination for default proceeding.

6. Sample Bid Specification:

*The requirements of 49 CFR Part 26, Regulations of the U.S. Department of Transportation, apply to this contract. It is MART's policy to practice nondiscrimination based on race, color, sex, or national origin in the award or performance of this contract. All firms qualifying under this solicitation are encouraged to submit bids/proposals. Award of this contract will be conditioned upon satisfying the requirements of this bid specification. These requirements apply to all bidders/proposers, including those who qualify as a DBE. A DBE contract goal of \_\_\_\_ percent has been established for this contract. The bidder/proposer shall make good faith efforts, as defined in Appendix A, 49 CFR Part 26 (Attachment 1), to meet the contract goal for DBE participation in the performance of this contract.*

*The bidder/proposer will be required to submit the following information:*

- (1) The names and addresses of DBE firms that will participate in the contract;*
- (2) A description of the work that each DBE firm will perform;*
- (3) The dollar amount of the participation of each DBE firm participating;*
- (4) Written documentation of the bidder/proposer's commitment to use a DBE subcontractor whose participation it submits to meet the contract goal;*

*(5) Written confirmation from the DBE that it is participating in the contract as provided in the commitment made under (4); and (5) if the contract goal is not met, evidence of good faith efforts.*  
*Items (1) thru (4) must be documented on the “Schedule of Intended DBE Participation” form, and item (5) must be documented on the DBE Affirmation form.*

#### **I. Counting DBE Participation**

At the time when MART establishes contract goals it will follow the regulations established in Section 26.55 of 49 CFR Part 26 on how to count DBE participation toward goals.

### **V. CERTIFICATION STANDARDS**

#### **A. Burdens of Proof**

MART will follow the regulations of Section 26.61 of 49 CFR Part 26 regarding DBE burden of proof requirements concerning group membership or individual disadvantage, business size, ownership, and control.

#### **B. Group Membership Determinations**

MART acknowledges Section 26.63 of 49 CFR Part 26.

#### **C. Social and Economic Disadvantage**

MART acknowledges Section 26.65 of 49 CFR Part 26. However MART is not a certifying entity. Please refer to the Massachusetts UCP agreement referenced in section VI.A below. .

#### **D. Business Size Determinations**

MART acknowledges Section 26.67 of 49 CFR Part 26. However MART is not a certifying entity. Please refer to the Massachusetts UCP agreement referenced in section VI.A below.

#### **E. Ownership Determinations**

MART acknowledges Section 26.69 of 49 CFR Part 26.

#### **F. Control Determinations**

MART acknowledges Section 26.71 of 49 CFR Part 26.

#### **G. Other Considerations**

MART acknowledges Section 26.73 of 49 CFR Part 26.

## **VI. CERTIFICATION PROCEDURES**

### **A. Unified Certification Program**

MART is a member of a Unified Certification Program (UCP) administered by the Commonwealth of Massachusetts' Supplier Diversity Office (SDO). The UCP will meet all of the requirements of this section. MART will use and count for DBE credit only those DBE firms certified by the SDO.

The Massachusetts SDO will provide "one stop shopping" for all DBE and SBE applicants for certification, such that an applicant is required to apply only once for DBE certification that will be honored by all Recipients in the Commonwealth of Massachusetts. The SDO was created as a successor the State Office of Minority and Women Business Assistance ("SOMWBA") within the Operational Services Division of the Executive Office for Administration and Finance. The SDO will make all certification decisions on behalf of all USDOT recipients in the state with respect to participation in USDOT DBE programs. SDO shall maintain a unified directory of DBE's (including those from other states certified under 49 CFR Part 26) which shall be available electronically on the internet, and in print upon request.

### **B. Procedures for Certification Decisions**

MART acknowledges Sections 26.83 thru 26.91 of 49 CFR Part 26. However MART is not a certifying entity. Please refer to the Massachusetts UCP agreement referenced in section VI.A above.

## **VII. RECORDKEEPING, MONITORING AND ENFORCEMENT**

### **A. Monitoring Payments to DBE's**

Prime contractors that fail to comply with MART's Prompt Payment Policy, after MART has taken all initial measures to resolve untimely payments, would be subject to, at a minimum, the following compliance mechanisms developed by MART.

*Issue a stop-work order until payments are released to subcontractors, specifying in the contract that such orders constitute unauthorized delays for the purposes of calculating liquidated damages if milestones are not met.*

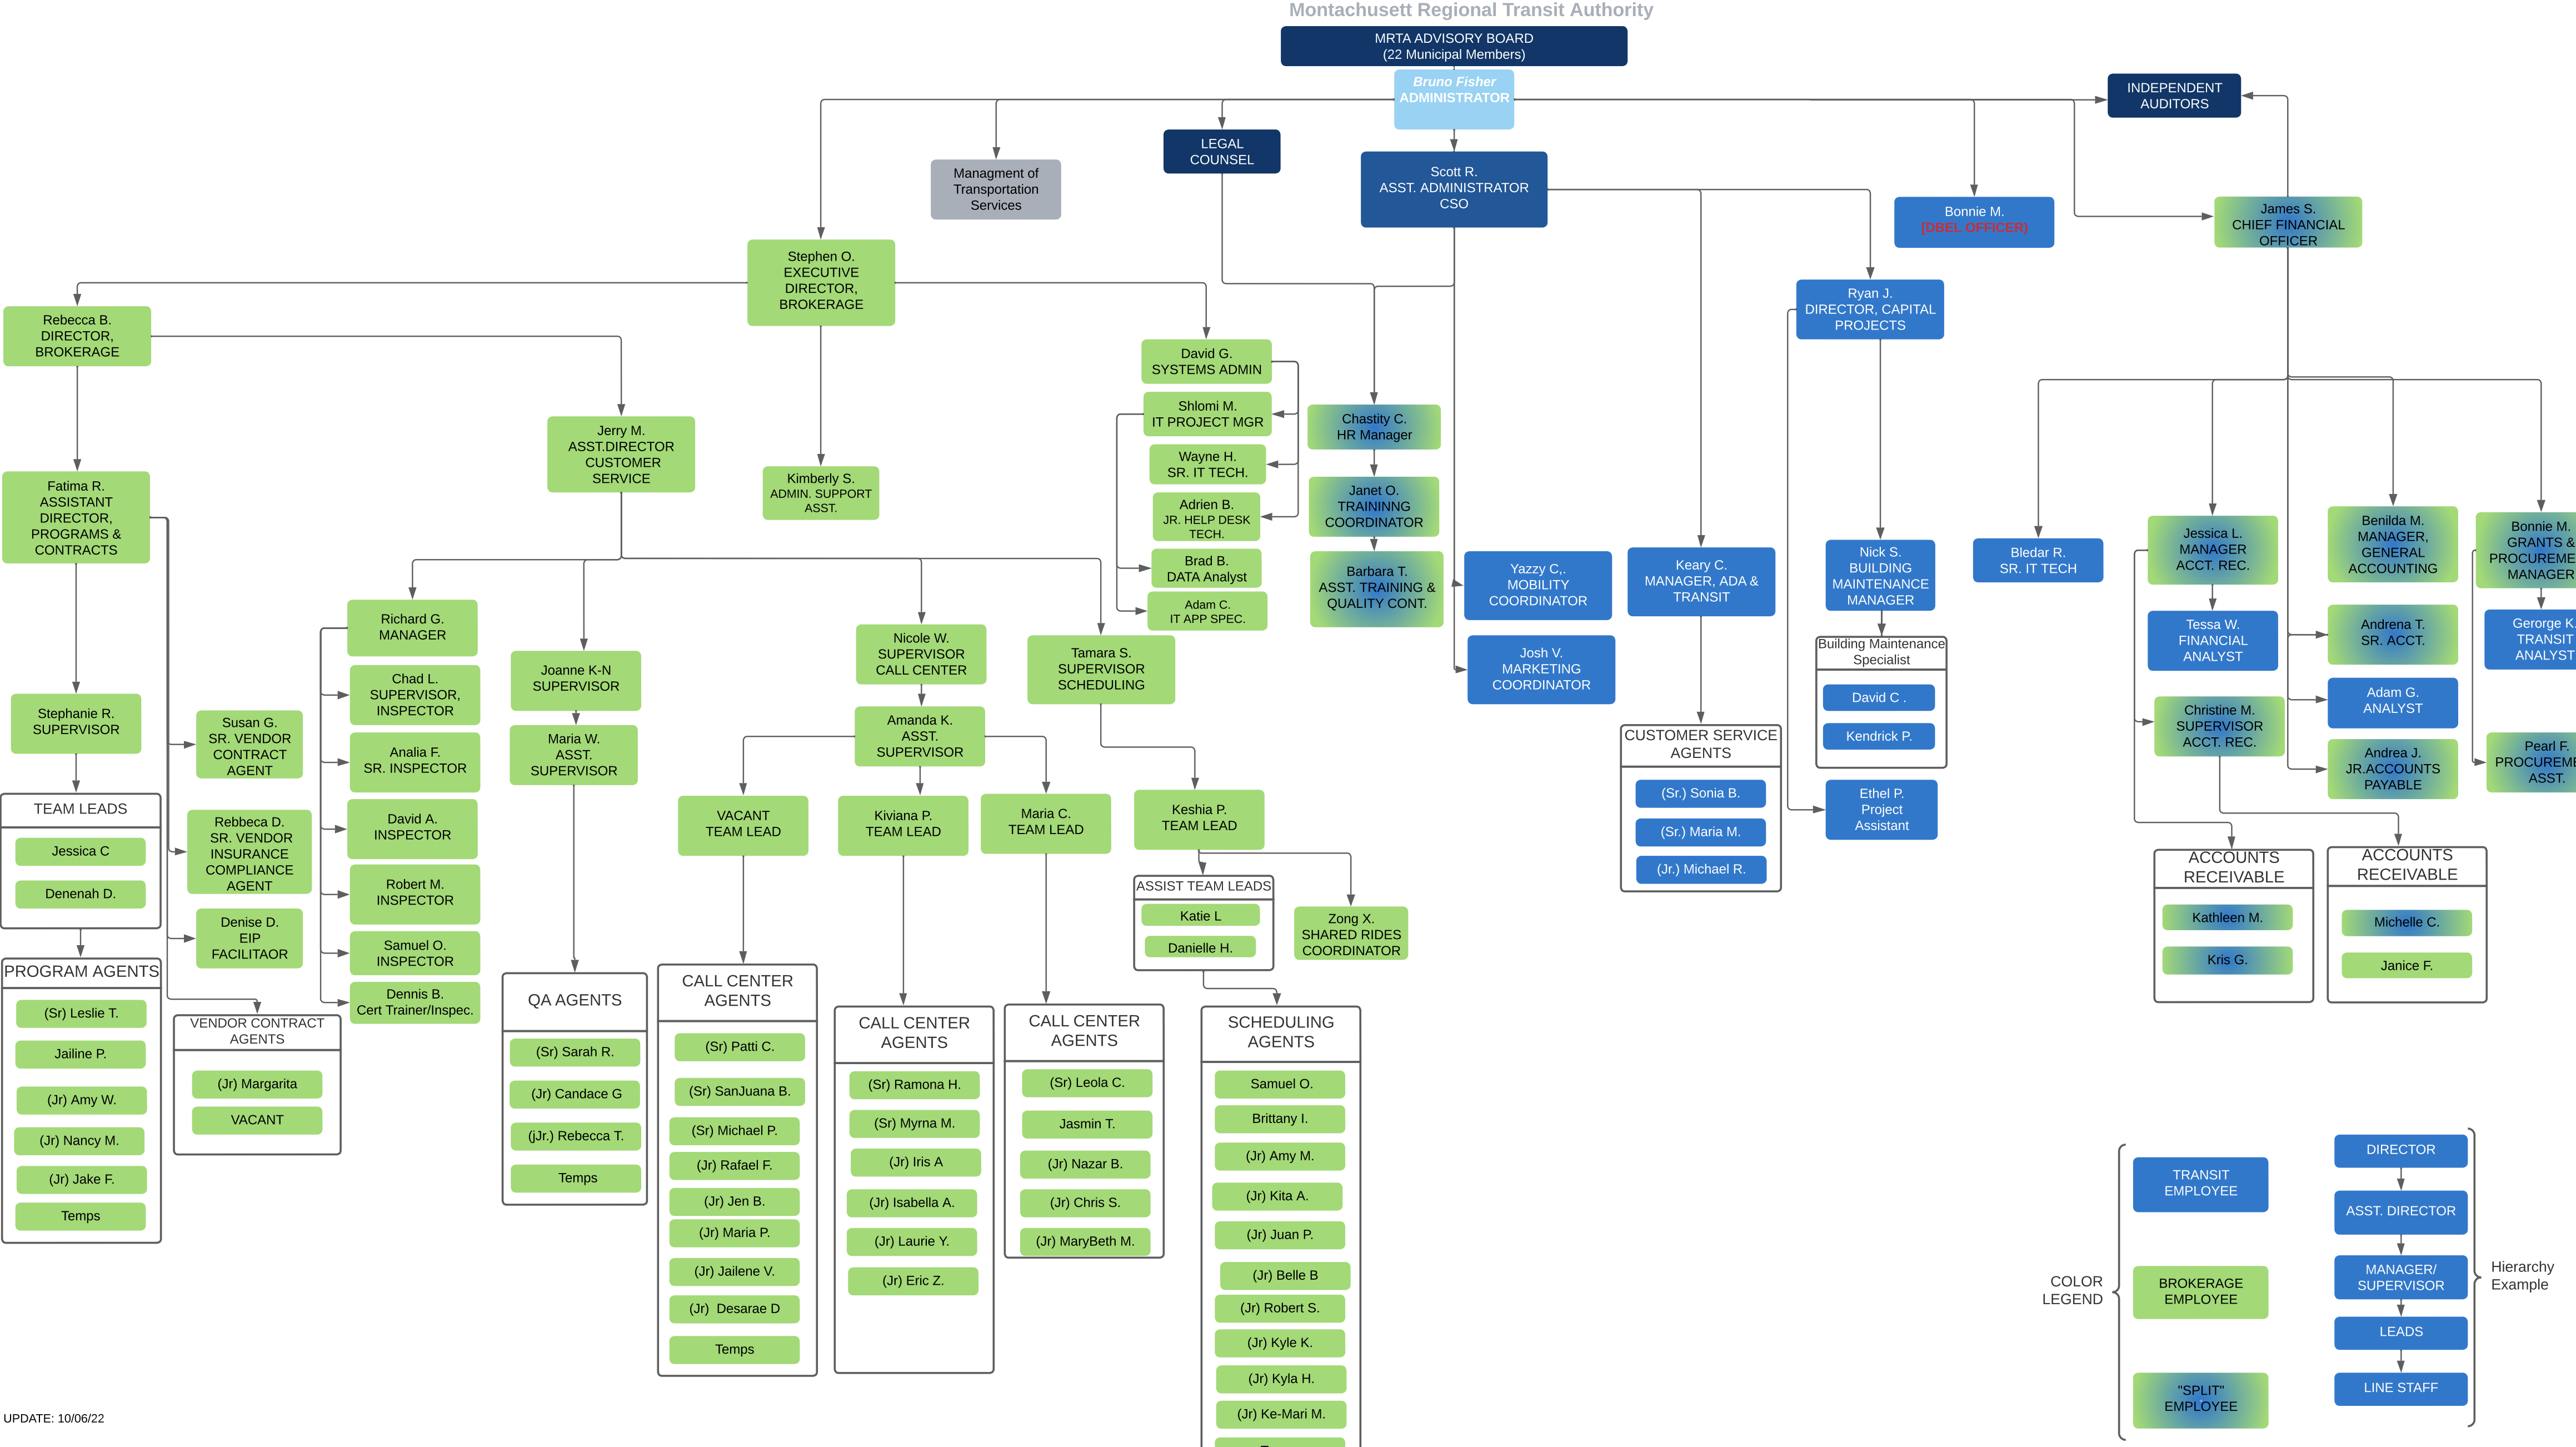

*MART may also choose to pay subcontractors directly and deduct this amount from the retainage owed to the Prime Contractors if the above mechanism fails.*

*Further delays and failures to resolve payment issues may result in contract termination.*

It will be the contractor's responsibility to maintain records and documents for three years following the performance of the contract. These records will be made available for inspection upon request by any authorized representative of MART or FTA. This reporting requirement is also extended to any certified DBE subcontractor.

MART will bring to the attention of the Federal Transit Administration any false, fraudulent, or dishonest conduct in connection with the program, so that DOT can take the steps (e.g., referral to the Department of Justice for criminal prosecution, referral to the DOT Inspector General, action under suspension and debarment or Program Fraud and Civil Penalties rules) provided in 26.109.

[illegible]

### Attachment 3 – **MONITORING & ENFORCEMENT MECHANISMS/LEGAL REMEDIES**

The Montachusett Regional Transit Authority, along with the monitoring activities defined in Section III.H above, has available several remedies to enforce the DBE requirements contained in its contracts, including, but not limited to, the following:

1. Breach of contract action, pursuant to the terms of the contract;
2. Suspension or debarment proceedings pursuant to M.G.L. c. 29, §29F and M.G.L. c. 149, §44C

In addition, the federal government has available several enforcement mechanisms that it may apply to firms participating in the DBE problem, including, but not limited to, the following:

1. Suspension or debarment proceedings pursuant to 49 CFR part 26
2. Enforcement action pursuant to 49 CFR Part 31
3. Prosecution pursuant to 18 USC 1001.

**Attachment 4 – Good Faith Effort Forms**  
**DISADVANTAGED BUSINESS ENTERPRISE**  
**PROJECT PARTICIPATION STATEMENT**

**PROJECT #:** \_\_\_\_\_

Contract goals have been set for this procurement. MART's current DBE goal is set at 2%. All contractors **MUST** do their best to obtain DBE subcontractors at the same goal. **If the 2% is not shown in the form below, then proof of "Good Faith Effort" must be presented prior to Notice of Award.** Failure to present this documentation will result in a non-responsive bid regardless of score. **(DBE Certificates of all stated DBE's must be provided.)**

I hereby certify that \_\_\_\_\_  
(Name of Company)

- Is a **Certified Disadvantaged** Business Enterprise (DBE) – *as defined in 49 CFR (Subtitle A) Part 26.5*  
**OR**  
— Is NOT a Certified Disadvantaged Business Enterprise.

I further certify that our company shall:

— Perform 100% of the work required, including the provision of goods/materials, to fulfill the scope of services being procured under this RFR/RFP/IFB.

**OR**

— Utilize the following subcontractor(s) in the performance of the work required, as a joint venture under this bid. The following is a breakdown of the contract work for our company **and** its subcontractors:

**LIST ALL SUB-CONTRACTORS BEING UTILIZED ON THIS PROJECT REGARDLESS OF STATUS**

Company/Firm Name:	Contact Person/ Email:	Function being performed:	\$ Value of Work to be Performed	DBE Status (Y or N):
Total contract Value: \$		Total DBE Value: \$		DBE Value as a % of Contract Value: %

I attest that the information above is true and accurate to the best of my knowledge and information.

\_\_\_\_\_  
Signature of Contractor's Authorized Representative

\_\_\_\_\_  
Date

## DISADVANTAGED BUSINESS ENTERPRISE UTILIZATION AND FAIR SOLICITATION AFFIDAVIT

**FAILURE TO COMPLETE THIS FORM AND IDENTIFY YOUR UTILIZATION OF DBEs WILL RENDER YOUR BID AS UNRESPONSIVE AND NOT ELIGIBLE FOR ACCEPTANCE AS A COMPLETE SUBMISSION.**

I acknowledge the overall certified DBE subcontract participation goal of 2 %. I have made a good-faith effort to achieve this goal. If awarded the contract, I will continue to attempt to increase DBE participation during the project, when and where feasible within the constraints of the contract.

- 1 ☐ **I have met the overall DBE goal for this project.**
- Attachment A [*DBE Project Participation Statement*] is required
- OR**
- 2 ☐ **After having made a good-faith effort to achieve the overall DBE goal, I can achieve partial success only.**
- Attachment A [*DBE Project Participation Statement*] is required
- OR**
- 3 ☐ **After having made a good faith effort to achieve the overall DBE goal for this project, I am unable to achieve any portion of the goal.**
- Attachment B [*DBE Waiver Statement*] will be required

I understand that if I am the apparent awardee or conditional awardee, I must submit **within 5 business days** any other documentation MART requires to ascertain my responsibility in connection with the DBE participation contract goal.

I acknowledge that if I fail to timely return complete documents, MART may determine that I am not responsible and therefore not eligible for contract award.

In the solicitation of subcontract quotations or offers, DBE subcontractors were provided the same information and amount of time to respond as were non-DBE subcontractors.

The process was conducted in such a manner that did not place DBE subcontractors at a competitive disadvantage to non-DBE subcontractors.

**I affirm under the penalties of perjury that this Affidavit is true to the best of my knowledge, information, and belief.**

## DISADVANTAGED BUSINESS ENTERPRISE WAIVER STATEMENT

I acknowledge the overall certified DBE subcontract participation goal of 2%.

I have made a good-faith effort to achieve this goal in accordance with Section 26.53 of 49 CFR Part 26.

I was unable to achieve DBE Participation on this project despite a good faith effort to include DBEs.

1 ☐ I was unable to locate any DBEs for the specified Trade

**OR**

2 ☐ I was able to locate DBEs, however their cost, availability, or other critical aspect of their proposal was prohibitive

**Backup documentation clearly and articulately showing either outreach efforts, cost comparison, availability issues or other, must be submitted with this form to the satisfaction of the DBE Officer for acceptance.**

**I affirm under the penalties of perjury that this Affidavit is true to the best of my knowledge, information, and belief.**

\_\_\_\_\_

MART's DBE Program summarizes both the contractor's responsibility and MART's review of these "Good Faith Efforts" under section IV.H. A copy of MART's DBE Program is located at <https://www.mrta.us/business-with-mart/dbe-program-goals/> under the link "DBE Program Overview."

For additional information please see:

Title 49 Subtitle A Part 26: Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs

## Attachment 5 – CERTIFICATION FORMS

MART has signed a UCP Agreement with the Massachusetts Supplier Diversity Office, attached here. The following link will bring the potential DBE to SDO's website where they can learn about the certification process and access all required forms.

<https://www.sdo.osd.state.ma.us/Content/download-forms.aspx>

The firm may also contact the SDO via alternative forms of communication at the following:
